Community service isn't just words, but on opportunity in life to contribute one's time to helping others but and making a difference in society; and thus a better place to live for all. Throughout my year of school, I have been fortunate enough to see hands on, how sharing what I've learned in my life with others, make a directly positive influence in their lives. Music and academics have always been at the forefront of my life and has educated and inspired me to enjoy serving in the community. Although personal benefits may be realized, it may be performed for a variety of reasons including citizenship requirements, a substitution of criminal justice requirements of a School on class and requisites for the receipt of certain benefits.

As I move forward in my life, I hope to attain knowledge in medicine and eventually became a doctor once again, as I educate myself in this new field. I hope to give back by serving in my community and perhaps different communities throughout the world.

What is Community Service;

Community is unpaid work performed by a person or group of people for the benefit and betterment of their community without any form of compensation. Community service can be compulsory per situation.

Community service is an integral part of the education of our nation use. Through service to others, students improve their self-esteem, develop a sense of responsibility and develop sensitively to the needs of others and the community as a whole community service projects are well planned, organized and voluntary efforts designed to address a specific need in the community. Well consumed project students with the opportunity to plan and implement a project to which they feel personally committed.

"A key factor that defer mines a community is ability to manage resources is its social willingness to set and strive for common goals".

These characteristics include the history of the community and its relatives with others.

Its present social structure, its cultural values and the way it governs itself.

1. Community Service Helps connect to the Community :

Giving back and assisting others is the basis of community service or volunteering. Thus, it teaches us how significant it is to help the ones in need, the ones who are less fortunate than us. How does volunteering benefit the community?

Volunteering or community service provides you with a perfect opportunity to become closer to the community you live in.Community service broadens your horizons by helping you understand the needs of the society and the population you are typing to help through the project you are volunteering on. Reading or hearing about issues is not quite the same as getting personally involved. It brings you closer to families and individuals in need, gives you firsthand experience and understanding of the conditions they are in

4. Community Services Establishes Contacts and Friendships :

The easiest way to make friends is through activities you perform together. Not only would you be helping the ones in need but you also be able to meet some other voluntaries. Sense of Responsibility:

Community service is the best way to instill this sense of responsibility to them. To add another dimension to the aspect of reform, the American judicial system has recognized this and it has been assigning such projects to laws breakers for a long time. Inmates are asked to participate in cleaning roads, beaches etc. This brings discipline and reform in the life of a convict. Particularly those who are young. Such convicts have a good chance to turn over a new leaf by doing such projects.

Good Moral Values.

Moral values life honesty, humbleness, gratefulness, respect, non-judgmental, sincerity are some of the virtues to be learned from serving the community. Unfortunately, these cannot be taught in the classroom. Due to all these reasons, parents are sending their kids regularly and in large numbers for such activities. This gives them a good feeling of having done something for others. The children learn to think beyond me, and get a wide perfective.

Unity Among all:

Another reason why people promote it because it can become a vehicle for getting a nation together. It can almost be like the focal point of a nation, as there is a major emphasis on doing well for others. This is mostly by religious and political corridors.

In conclusion, I can say that I have definitely learned how to be more patience and be understanding. Is it working as a team in such a big group together or be it controlling and managing the senior citizens both these need to have a more patience and understanding.

Another thing to mention is, after seeing the peoples over there I felt so pity for them.

Able to help and teach and to also show love and support to old-age people, there was definitely a privileged. Seeing the smile on their face really made our day and make us feel the joy of doing those little things. If I had an opportunity to do this sort of event or project in the future again. I would definitely want to volunteer and help out.
